

Lane Telecommunications Releases New Version of its Passport 4000 Fax Server

Basingstoke, UK: 20 October 2009 – Lane today announced that it has launched a new version of its Passport 4000 Fax Server, which supports Microsoft Windows Server® 2008 R2, to offer customers enhanced security, as well as innovative user interface features and reliability improvements. Passport 4000 is the most powerful, flexible and cost-effective fax server on the market today. Its modular architecture enables it to be configured to meet the production and desktop fax needs of any business, from the largest enterprise to mid-market and smaller users.

“Our ISV community is alive with innovation, and we’re committed to helping our partners drive the next generation of software experiences,” said Ross Brown, Vice President of ISV and Solutions Partners for the Worldwide Partner Group at Microsoft. “Adding compatibility for the latest Microsoft operating systems helps ISVs to stay ahead of the competition and give their customers access to cutting-edge technologies.”

“Lane is excited to launch this new version of Passport 4000” said Dave Bullock, Group Product Manager at Lane. “By making our Passport 4000 software compatible with Microsoft Windows Server 2008 R2 we are able to offer significant benefits our customers, such as a more intuitive management console, increased stability and reliability, improved performance due to the 64bit OS and the virtualisation capabilities that Windows Server 2008 R2 offers”

About Lane Telecommunications

Since its formation in 1976 Lane has been at the forefront of messaging communications and is now recognised internationally as a leader in fax integration, across the financial, healthcare, manufacturing and transport industries. Based in the UK, US and Singapore, Lane has implemented systems across 50 countries and provided professional services in all time zones. Lane offers the very best solutions for integrating fax servers as a part of wider communications networks. As specialists in messaging solutions for over 30 years, Lane delivers seamlessly integrated fax and messaging systems across entire organisations and into consolidated data networks, across one site, many sites or across borders.
